

AMENDMENTS TO THE CLAIMS

Claims 1-8 and 10-38, 49, 52-58 and 60-67 remain in the application. Claims 4 and 26 have been amended. Claims 9, 39-48, 50-51 and 59 have been canceled. Claims 28-38, 49, 52-58 and 60-67 are "new" relative to the patent subject to the reissue.

The entire text of pending claims 42-114 is set forth in the listing of claims below in the format required by 37 C.F.R. § 1.173. This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

4. (Amended) The gaming machine of claim [2] 1, wherein the secondary display is provided in a top box portion of the gaming machine, which top box portion is located above the main display portion of the gaming machine.

Please cancel claim 9.

26. (Twice Amended) A gaming machine comprising:
a chassis defining a gaming machine interior region and a gaming machine exterior surface;
a gaming machine controller for controlling the outcome of a primary game played on said gaming machine;
a main display capable of presenting the outcome of the primary game on the gaming machine;
a secondary display, which is a flat panel display, provided on said gaming machine at a location disposed apart from said main display [and displaying] operable to display video content comprising pixilated video frame data [including] related to at least a secondary bonus game [of chance play];

a graphics controller operable to provide the video content to the secondary display fast enough to allow animated objects to appear to move continuously on the secondary display; and
a player tracking device mounted on said chassis, said player tracking device comprising,
[(a) a display, separate from said main display and said secondary display
and,
(b)] one or more interfaces designed or configured to input player tracking information into the gaming machine wherein the gaming machine [controller] is designed or configured to cause the player tracking information and the video content comprising pixilated video frame data related to [the] player tracking information to be displayed on at least one of the main display and the secondary display.

Please add the following new claims:

28. (New) The gaming machine of claim 26 wherein the secondary display is provided in a top box portion of the gaming machine, which top box portion is located above the main display portion of the gaming machine.

29. (New) The gaming machine of claim 26 wherein the secondary display is provided in a belly portion of the gaming machine, which belly portion is located below a main display portion of the gaming machine.

30. (New) The gaming machine of claim 26 wherein the secondary display comprises at least one of a flat panel cathode ray tube, a liquid crystal display, a plasma display, a field emission display, a digital micro-mirror display, and an LCD touch screen.

31. (New) The gaming machine of claim 26 wherein the video content relates to any of casino kiosk information, television programming, a secondary game, primary game outcome information, player attraction material, video conferencing, and casino service notification.

32. (New) The gaming machine of claim 31 wherein the casino kiosk information relates to one or more of a drink order, a food order, a reservation, a banking transaction, a shop, a restaurant, an entertainment event or a casino service.

33. (New) The gaming machine of claim 26 wherein the video content relates to a pay out information corresponding to the primary game.

34. (New) The gaming machine of claim 26 wherein the gaming machine controller is further operable to alter parameters associated with the primary game in response to the player tracking information.

35. (New) The gaming machine of claim 26 wherein the one or more interfaces associated with the player tracking device comprises any of a card reader, a key pad, a display, and a network interface.

36. (New) The gaming machine of claim 26 wherein the secondary display is further operable to display content targeted to a customer corresponding to the player tracking information.

37. (New) The gaming machine of claim 26 wherein the player tracking device further comprises an alphanumeric display.

38. (New) The gaming machine of claim 26 further comprising at least one speaker for generating sound corresponding to the video content.

39.-48. Cancelled.

49. (New) A gaming machine comprising:
a chassis defining a gaming machine interior region and a gaming machine exterior surface;
a gaming machine controller for controlling at least the outcome of a primary game played on the gaming machine;
a main display capable of presenting the outcome of the primary game on the gaming machine;
a top box portion wherein said top box portion is detachable from the gaming machine and is located above the main display portion of the gaming machine,
comprising:
a secondary display separate from the main display which is operable to display video content comprising pixilated video frame data wherein the gaming machine is operable to cause video content including player tracking information to be displayed on the secondary display;
one or more interfaces designed or configured to input player tracking information into the gaming machine.

50.-51. Cancelled.

52. (New) The gaming machine of claim 49 wherein the secondary display comprises at least one of a flat panel cathode ray tube, a liquid crystal display, a plasma display, a field emission display, a digital micro-mirror display, and an LCD touch screen.

53. (New) The gaming machine of claim 49 wherein the video content relates to any of casino kiosk information, television programming, a secondary game, primary game outcome information, player attraction material, video conferencing, and casino service notification.

54. (New) The gaming machine of claim 49 wherein the video content relates to a secondary game which includes a bonusing component to the primary game.

55. (New) The gaming machine of claim 49 wherein the video content relates to a pay out information corresponding to the primary game.

56. (New) The gaming machine of claim 49 wherein the gaming machine controller is further operable to alter parameters associated with the primary game in response to the player tracking information.

57. (New) The gaming machine of claim 49 wherein the one or more interfaces comprise any of a card reader, a key pad, a display, and a network interface.

58. (New) The gaming machine of claim 49 wherein the secondary display is further operable to display content targeted to a customer corresponding to the player tracking information.

59. (Cancelled).

60. (New) The gaming machine of claim 49 further comprising at least one speaker for generating sound corresponding to the video content.

61. (New) The gaming machine of claim 49 further comprising a multimedia board designed or configured to decode encoded video signals in a manner allowing display of the video content from decoded video signals on the secondary display, and to decode encoded audio signals in a manner allowing projection of audio content from decoded audio signals to one or more audio outputs

62. (New) The gaming machine of claim 61 wherein the multimedia board comprises a video processor and at least one of a TV tuner, a NTSC decoder, a PAL decoder, a digital video to analog video converter, and a stereo/SAP decoder.

63. (New) A gaming machine comprising:
a chassis defining a gaming machine interior region and a gaming machine exterior surface;
a gaming machine controller for controlling an outcome of a primary game played on said gaming machine wherein the gaming machine is configured to allow a user to

select from a plurality of different primary games available for play on the gaming machine;

a main display capable of presenting the outcome of a selected primary game on the gaming machine; and

a top box portion wherein said top box portion is detachable from the gaming machine and is located above the main display portion of the gaming machine, comprising;

a secondary display configured to display video content wherein the gaming machine is operable to display on the secondary display gaming information including pay out information related to the selected primary game while the outcome of the selected primary game is displayed on the main display.

64. (New) The gaming machine of claim 63 wherein the secondary display comprises at least one of a flat panel cathode ray tube, a liquid crystal display, a plasma display, a field emission display, a digital micro-mirror display, and an LCD touch screen.

65. (New) The gaming machine of claim 63 wherein the video content relates to any of casino kiosk information, television programming, a secondary game, primary game outcome information, player attraction material, video conferencing, and casino service notification.

66. (New) The gaming machine of claim 63 wherein the video content relates to a secondary game which includes a bonusing component to the primary game.

67. (New) The gaming machine of claim 63 wherein the top box portion further comprises one or more interfaces designed or configured to input player tracking information into the gaming machine
